## **ACCESS CONTROL AND TIME ATTENDANCE**

1. ***Fingertec AC102 PLUS***: - Fingertec AC100 Plus is a high end fingerprint reader for recording of employee's daily time attendance.

### **Features & Benefits**

- Embedded with URU scanner
- Greater accuracy and sensitivity
- Data to be stored in USB flash Disk
- Solutions for heavy traffic
- Time attendance report generations
- Systematic data for analysis and assessment
- Enhanced features

2. ***Fingertec AC100 with RFID***: - Fingertec AC100-R is the latest fingerprint time attendance system equipped with RFID Proximity Card functions.

**Features & Benefits**

- Fingertec AC100-R I the latest fingerprint time attendance system equipped with RFID Proximity Card functions.
- Multi Verification Methods
- Maintenance of existing RFID Card
- Sizeable storage capacity
- Efficient Recognition System
- Connections Availability
- Easy & Economical Integration
- Powerful Time Attendance software

3. ***Fingertec AC100 Series***: - Introducing time attendance system of the future, Fingertec AC100 series, the system that incorporates fingerprint verification technology to produce precise clocking time of each employee.

**Features & Benefits**

- Manage one-to-many
- Allow a maximum of 10 fingerprint enrolment per user
- Allow 360 Degree fingerprint placement
- Possess storage capacity of 100,000 (AC102), 120,000(AC103) transactions
- Offer Easy enrolment and fast clocking system
- Equipped with voice greeting to ease operation
- Enable Transaction download with RS232, RS485 and TCP/IP
- Complete with easy-to-use windows based time and attendance management software
- Improved management of human resource

4. ***Fingertec AC802 Plus-E***: - An advanced fingerprint reader designed to have door access control function and time clocking function, all in one system.

**Features & Benefits**

- Manage one-to-many identifications of 1500 templates
- Allow a maximum of 10 fingerprints per user
- Possess storage capacity of 30,000 with work code feature
- Offer easy enrolment and fast clocking system
- Equipped with built-in doorbell, voice greeting and door access system to ease operation
- Enable transactions download via RS232, RS485, TCP/IP and USB Flash Disk
- Complete with easy-to-use windows based management software and built-in standard time and attendance features
- Improved management of human resources
- Duress option, which allows user to trigger alarm in case of emergency using duress finger

5. **Fingertec AC800 Plus MC:** Fingertec AC800 Plus with MiFare card is a fingertec reader embedded with proximity card function, allowing to be stored in cards or in the reader. Fingertec AC800 Plus MC functions to control door access and to record time and attendance activity of employees suitable for every office, factories and in places with high traffic flow.

#### **Features & Benefits**

- Manage one-to-many identification of 1500 templates
- Recommended 2 fingerprints enrolment per user ID
- Allow placing of fingerprints in any angle
- Possess storage capacity of 30,000 with work code feature
- Offer easy enrolment and fast clocking system
- Equipped with built-in doorbell, voice greeting and door access system to ease operation
- Complete with easy-to-use windows based management software, TCMS V2, which can produce 15 printable reports and in various languages
- Improved management of human resources
- Duress option, which allows user to trigger alarm in case of emergency using duress finger

6. ***Fingertec AC800 Series-E***: - Fingertec series is a fingerprint reader that combines door access control system and time clocking system, designed to safeguard your company as well as to improve your employee's discipline and productivity.

**Features & Benefits**

- Manage one-to-many identifications of 1000 templates (AC801), 1500 templates(AC802) and 2800 templates(AC803)
- Allow a maximum of 10 fingerprint enrolment per user
- Allow 360 Degree fingerprint placement
- Possess storage capacity of 300,000 (AC801), 100,000(AC802) and 120,000(AC803) transactions
- Offer Easy enrolment and time clocking system
- Equipped with built-in doorbell, voice greeting and door access system to ease operation
- Enable Transaction download with RS232, RS485 and TCP/IP
- Complete with straightforward windows based management software and built-in standard time and attendance features
- Improved management of human resource

7. ***Fingertec AC900 Series-E***: - Fingertech AC900 series fingerprint Door Access Control and Time Attendance System delivers confidence and convenience by personalization of users through their fingerprints and eliminating the use of card system for door access.

**Features & Benefits**

- Easy Installation with Adap Tec AC
- Easy Enrolment and fast verification
- Sizeable Storage Capacity
- Connections Availability
- Readily Availability Alarm Trigger
- Powerful Time Attendance Software
- SDK BioBridge Available

9. ***Fingertec TA100 Series-E***: - Experience the simplicity of efficient fingerprint technology in time clocking with Fingertec TA100 Fingerprint Series Time & Attendance System. TA 100 series offers a touch-and-go concept with its powerful one-to-many identification technique which can verify a user with only a touch of a fingerprint on the sensor.

**Features & Benefits**

- One-to-many identification and and one-to-one verification
- Allow a maximum of 2 fingerprint enrolment per user ID
- Allow placing of finger in any angel
- Possess storage capacity of 100,000 (TA102), 120,000(TA103) transactions
- Offer Easy enrolment and fast clocking system
- Equipped with built-in doorbell, voice greeting and door access system to ease operation
- RS232/ RS485/ Ethernet communication interface
- Easy-to-use management software
- Complete with built-in-siren feature

10. ***Fingertec TA103 R***: - Fingertec introduces a combination of fingerprint verification and proximity card function in one simple yet effective time and attendance system. Fingertec TA103-R provides variety and convenience in verification methods for attendance reporting without compromising on the effectiveness of entire system.

***Features & Benefits***

- Multi-Verification Methods
- Maintenance of Existing RFID Card
- Sizeable Storage capacity
- Recommended Storage Capacity
- Efficient Recognition System
- Connections Availability
- Easy & Economical Integration
- Powerful Time Attendance Software
