## Night Vision Binoculars

The night vision DVS-8 is observational optic-electronic binoculars/goggles, intended for examining objects and orientation at nighttime or dark conditions. The unit utilizes a Generation 3 intensifier tube from main European manufacturers DELFT ELECTRONIC PRODUCTS B.V.

The device was designed to be easy to use, and provide many years of operation.

### **a) Applications:**

Some of the typical activities where DVS-8 will be useful:

1. Military operations
2. Search and Rescue Operations
3. Law enforcement
4. Security and patrolling

### **b) Advantages of DVS-8:**

1. Waterproof construction
2. Built-in Infra Red illuminator allows observations in total darkness.
3. Flip/flop mechanism allows easy unobstructed vision.
4. Independently adjustable eyepieces.
5. Ideal in situations requiring hands-free operation.
6. Lightweight and comfortable.
7. A soft rubberized eyepiece makes the viewing more comfortable;
