We work in corporate and industrial setups throughout India and internationally for selected clients. Our personnel have conducted sweeps for eavesdropping devices for more than 8 years.

We specialize in Technical Surveillance Countermeasures (TSCM) and related activities. These activities include detection and identification of electronic as well as non-electronic methods of information loss, design, and implementation of communication security plans, evaluation of existing TSCM programs and TSCM review and training classes.

Our services include:

- Technical Surveillance Countermeasures Eavesdropping Detection Surveys
- PBX system vulnerability analysis.
- Executive residence communication protection.
- Identification of non-electronic vulnerabilities to corporate espionage,
- Information gathering, and competitive intelligence efforts.
- In-house TSCM program evaluation, development and training.
